## DEMOCRATS BATTLE OVER OKLAHOMA CHOICE

Convention Deadlocked, With  
Clark, Harmon and Wilson  
Forces Working Furiously

Oklahoma City, Okla., Feb. 22. With prospects that the session will last until morning, the Democratic State Convention tonight is trying to select delegates to the National Convention at Baltimore.

Efforts to compromise upon a split delegation so far have failed, and with 190 delegates uninstructed, the fight between Wilson, Clark and Harmon supporters is being stubbornly waged.

Wilson supporters won in the first skirmish this afternoon. The test came in deciding the method of selecting committees. Adherents of Clark and Harmon suggested the selection by counties, while the Wilson men demanded representation by judicial districts.

The motion came first from the Clark forces, but quickly leaders of the Wilson faction offered a substitute, in turn followed by a motion by a Clark man to table the substitute.

The first ballot was announced as a victory for the Clark contingent, 353 to 323, but the vote was challenged and a second ballot showed an even vote, 293. By a yea and nay vote it was decided that a tie vote does not table a motion, and in selecting the committees the Wilson plan prevailed.

Judge Thomas Doyle of the Criminal Court of Appeals, an avowed Harmon man, was selected as temporary chairman of the convention by the State Committee, and his selection was unanimously approved by the convention.

## PIONEER JOPLIN MINER DEAD

Joplin, Mo., Feb. 21.—Joseph Baker, 77 years old, a resident of Joplin since 1875 and a widely known pioneer mine operator in Southwest Missouri and South-eastern Kansas, died from rheumatism at his home after a long illness. The first carload shipment of lead ore sent out of the Galena camp was shipped by Mr. Baker, who was working a small mine in the area which later proved to be one of the richest shallow lead sections in the world.

## MUNICIPALLY OWNED PLANTS PROSPEROUS

Clay Center, Kan., Feb. 17.—The municipal electric and water plant in this city has recently paid \$5000 of the bonds voted in 1907, when franchise of the plants was authorized by voters. In the meantime \$15,000 has been spent in improvements, all of which was paid from the surplus from rates which the private company declared were confiscatory when the City Council proposed to limit prices to be charged.

Clay Center has 3500 population and practically every house in the city buys light and water from the municipal plant at present prices. Much litigation grew out of the bond issue election and other points in connection with the taking of the business from the privately owned plant, but all of this ceased in November, 1910 when the city linemen chopped down the other plant's poles. Since then profit has accumulated rapidly.

It is estimated of the \$20,000 profit, \$15,000 is from the electric lights, and the city gets its street lights.
